INSIGHTS

For a Atliq Exclusive, **November 2020 marked the highest sales**, and **March 2020 marked the lowest gross sales**. It's very evident that the **lower sales between March and August** are because of Covid-19. However, it's a very good sign that the **sales increased quickly after August** and reached the highest level since the last two years in November.

	Q4	5.04
	Q3	2.08

Quarter 1 has the **maximum** total sold quantity

INSIGHTS

This again complements the previous insight. That is the effect of COVID-19 on our sales. **The sold quantity decreased to 2.1 million in quarter 3 of FY 2020, which was actually March, April, and May when COVID-19 was at its peak.**

But we started recovering very early despite the continuance of the pandemic. This **early recovery during quarter 4 is probably because of the increased need for hardware like desktops and notebooks as majority of the students began or continued to do their coursework online during this time**, and there was a huge demand for computer accessories during this period.
